Education

Chennai Institute of Technology

Bachelor of Engineering in Computer Science and Engineering *CGPA: 9.04*

Internship Experience

CodeAlpha Virtual Internship for Artificial Intelligence 10 Feb 2026 – 10 Mar 2026

- Build a Real – Time Object Detection System using Python, OpenCV and Ultralytics YOLOv8 that can identify and locate objects from a live webcam.
- Developed a Language Translation Tool using Python, Streamlit and Googletrans Library that allows translation between multiple languages in real time.

CodeAlpha Virtual Internship for Java Development 10 May 2026 – 10 Jun 2026

- Build a console – based Java application "Student Grade Tracker" to manage student records and analyse academic performance.
- Build a Stock Trading Platform that simulates a basic stock trading environment to manage the overall value of their investments.

Projects

Object Detection | *Python, OpenCV, Ultralytics YOLOv8*

- Developed a Real-Time Object Detection System that can identify and locate objects from a live webcam feed
- Explored how computer vision models detect objects in images and videos and applied those concepts in a practical application

Language Translator | *Python, Streamlit, Googletrans Library*

- Developed a Language Translation Tool that allows users to translate text between multiple languages in real time
- Explored how language processing systems work and how AI-powered translation can be integrated into simple applications

Stock Trading Platform | *Java, HashMap Collections, Scanner Class and IntelliJ IDEA*

- Developed a Stock Trading Platform using Java Collections and Object – Oriented Programming Principles of Java.
- Simulates a basic stock trading environment where users can view available stocks, buy and sell shares, manage their portfolio, and track the overall value of their investments.

Pantry-to-Plate | *HTML, CSS, JavaScript* Ideathon 2026

- Developed for Ideathon 2026: a smart web-based solution that helps users find meal ideas using the ingredients they already have at home

StudyPilot: AI-Based Study Progress Tracker | *Python, AI, Streamlit, NumPy*

- Built an AI-based study progress tracker using Python, AI, Streamlit and NumPy

Certifications

- Oracle – Certification Course
- GDG – Certification Course
- Cisco – Python Essentials 1 & 2
- MongoDB

Technical Skills

Programming Languages: Python, Java, C, C++
Web Technologies: HTML, CSS, JavaScript
Databases: MySQL, MongoDB
Frameworks & Tools: Streamlit, VS Code, GitHub
AI / ML: OpenCV, NumPy
Other Technologies: Linux, Docker (Basics)
Soft Skills: Communication, Team Collaboration, Problem Solving, Leadership, Time Management, Adaptability

Achievements

- Solved 360+ problems on LeetCode
- Achieved SQL 50 badge on LeetCode
- Participated in CodeAlpha Virtual Internships (AI & Java)
- Participated in Ideathon 2026 (Pantry-to-Plate)
- Participated in Made In India 2026 Hackathon (Smart Traffic Optimization)
- Achieved 365 days streak of Learning German on Duolingo

Career Interest

Interests: AI & Machine Learning, Web Development, Problem Solving, Computer Vision, Full Stack Development
